

Peri-Operative Care Study

- NCEPOD will be conducting a national study to examine the peri-operative care of adult patients undergoing inpatient surgery (both elective and emergency and).
- 1) Anaesthetists will be asked to complete a 1-page form prospectively for all patients they anaesthetise in the chosen week.
- Time period: 1-7 March 2010 inclusive.
 - Exclusions: day cases, obstetrics, and cardiac, transplant and neurosurgical patients.
- 2) Clinical advisors are also required for the peer review of casenotes.
Deadline for applications: 5 March 2010.
 - 3) For further information: please see our study page at www.ncepod.org.uk
email periopcare@ncepod.org.uk or call 020 7631 3444.

Thank you for your support!

Improving the quality of medical and surgical care
