Challenges and solutions in the care of the obese parturient
Thursday 17 March 2016
Organiser: Dr Neil Muchatuta, Bristol

Programme

10:00 Registration and coffee

10:20 Introduction
Dr Neil Muchatuta, Bristol

10:30 The extent and physiological impact of obesity in pregnancy Domain 1: Knowledge, skills and performance, 1A01
Dr Neil Muchatuta, Bristol

11:00 The influence of obesity on obstetric and fetal outcomes Domain 1: Knowledge, skills and performance, 3B00
Dr Fiona Denison, Edinburgh

11:45 Planning for safe delivery Domain 2: Safety and quality, Domain 3: Communication, partnership and teamwork, 1I02, 2A03
Dr Mark Scrutton, Bristol

12:15 Neuraxial ultrasound: challenges and pitfalls Domain 1. Knowledge, skills and performance, 2G02
Dr Chris Thompson, Bristol

12:45 Questions and discussion

13:00 Lunch

14:00 Analgesia for labour Domain 1: Knowledge, skills and performance, 2B01
Dr Nuala Lucas, London

14:30 Anaesthesia for caesarean delivery Domain 1: Knowledge, skills and performance, Domain 2: Safety and quality, 2B02, 2B03
Dr Martin Dresner, Leeds

15:00 Questions and case-based panel discussion Domain 2: Safety and quality

16:00 Depart

Learning objectives:
1. To understand the physiological impact of obesity in pregnancy
2. To understand how obesity affects fetal and obstetric outcomes
3. To develop strategies for the safe management of labour and delivery in obese parturients
4. To understand how previous bariatric surgery might affect labour and delivery
5. To develop a practical approach for the use of ultrasound to aid neuraxial blockade
